[opara1487@gmail.com](mailto:opara1487@gmail.com) | Abuja, Nigeria | <https://www.linkedin.com/in/paul-opara-280b81195/>

## **SUMMARY:**

Detail-oriented developer with a strong knowledge of new and advanced technologies, I specialize in creating user-friendly applications for clients. Solid understanding and utilization of the software development lifecycle, with experience in developing web applications and mobile applications. Experienced in troubleshooting, graphics design, networking, operating systems, systems administration, and security. I aim to become better at what I do and be the best in my profession.

**SKILLS:** Technical Support & Troubleshooting • Ticketing System • Linux OS • Operating Systems Installation • HTML • JavaScript • Python • CSS • Django • React Js • Mongo DB • Customer Service skills. • [GitHub](#), Git.

## **EDUCATION:**

### **Bachelor of Science, Computer Science**

*Baze University, November 2023*

### **WAEC**

*Living Spring Int'l College 2019*

## **PROFESSIONAL EXPERIENCE:**

### **Computer Technician**

*Cybertron Technologies. Abuja, Nigeria. March 2024- Present*

- Utilised preventive maintenance tools in repairing charging ports, and phone screens, servicing batteries of both Android and IOS devices.
- Diagnose and troubleshoot technical issues, including account setup and network configuration of Android and IOS devices.
- Implemented an efficient Backup and Restore process on all devices both on physical and cloud storage

### **Front-end Developer**

*Formcy LLC. Abuja, Nigeria. August -September 2023*

- Developed and designed a client's website with modern front-end frameworks like React Js to build dynamic web applications.
- Implemented responsive design techniques in HTML, CSS, and JavaScript to guarantee the website's functionality and aesthetics across various devices, resulting in an optimal viewing experience for users on smartphones, tablets, and desktops.
- Incorporated CSS preprocessors such as SASS or LESS, to streamline styling processes.
- Collaborated closely with back-end developers, facilitating the seamless integration of front-end and back-end systems.
- Conducted rigorous cross-browser compatibility testing and debugging using tools like Chrome DevTools and Firefox Developer tools, enhancing page load time by 30%.

- Adhered to web accessibility standards, to ensure inclusive design practices.

## **EDUCATIONAL EXPERIENCE:**

### **Development of an E-commerce web application. January -July 2023**

- Analyzed the goal of this data project and documented clear requirements and key expectations, to ensure that I always stayed on the task.
- Extracted key observations and insights from large internal and external data sources and presented a system design specifying hardware and software architecture.
- Created and developed small units of the web application such as styling, and payment methods which were integrated into the next phase. Each unit is developed and tested for its functionality which is referred to as Unit Testing.
- All the units developed in the implementation phase were integrated into a system after testing each unit.

## **PROJECTS:**

- **Portfolio Website**

<https://github.com/paul-3792/portfolio-website.git>

Developed a personal portfolio website showcasing projects, skills, and resumes.

- **Writing/Research Website**

<https://github.com/paul-3792/Writing-Website.git>

Formyce Copy is a global platform designed for students, businesses, and individuals to submit assignments and tasks for timely completion.

- **Cosmetics Website**

[https://github.com/paul-3792/makeup\\_website](https://github.com/paul-3792/makeup_website)

Veehub project aimed to create a seamless online platform catering to female customers seeking professional makeup services. Customers could conveniently book appointments online and receive personalized makeup services at the scheduled time in the physical shop.

- **Spices Web-application**

[https://github.com/paul-3792/tbest\\_web-app](https://github.com/paul-3792/tbest_web-app)

Tbest spices project aimed to create a seamless online platform catering to customers out there who are seeking spices that are already ground. Customers could conveniently order products online and get their spices delivered to their doorstep.

## **VOLUNTEER EXPERIENCE:**

### **Head of Projection**

*RCCG Faith Chapel. Gwarinpa, Abuja, Nigeria. January, 2023-Present*

- Ensured that the cameras are working perfectly for projection.
- Ensured that the systems for projection do not have any technical issue.
- Ensured that the wrong things aren't being projected at the right time.

### **Social media Manager**

*RCCG Faith Chapel. Gwarinpa, Abuja, Nigeria. July, 2024-Present*

- Made sure pictures and videos are being posted on the various social media handles before the weeks runs out.
- Made sure services being held on-line do not have any form of network interference.
